CENTRAL PENNSYLVANIA CHAPTER
CONSTRUCTION SPECIFICATIONS INSTITUTE

BIM – The Next Step

Tuesday, December 13, 2011

Join us for this program to learn about the following aspects of Building Information Modeling (BIM), with a special emphasis on BIM's relationship to construction specifications:

- BIM Process Overview
 - What is Building Information Modeling
 - How is it achieved
- Migrating to BIM Workflow
 - Business Principal's must be committed to change
 - Personnel, Hardware, Software Assessment
 - Project Selection / Scalability
- BIM Pertinence to Construction Specifications
 - Complete Meta-data associated with Parametric Components

(Continued on page 3)

*Spouses, guests and visitors
are welcome and encouraged to attend.*

RADISSON HOTEL

1150 Camp Hill Bypass, Camp Hill, PA

Board Meeting - 5:00 pm

All members are welcome to attend the Board Meeting

Attitude Adjustment - 6:00 pm

Dinner - 6:30 pm

Program - 7:15 pm

Dinner Cost

Free for Central Pennsylvania Chapter CSI Members;
Students \$10, All Others \$25

Dinner reservations by

Noon, Friday, December 9, 2011

See **FROM THE CHEF'S TABLE**
for Menu and Reservation details.

**The Central Pennsylvania Chapter meets
the second Tuesday monthly
except NO meetings are held in July or August.**

The Construction Specifications Institute is a nation-wide nonprofit technical organization dedicated to the advancement of construction technology through communications, education, research and service. Founded in 1948, CSI provides a forum for architects, engineers, specification writers, contractors, suppliers and others in the industry.

Anyone who is concerned with construction specifications in any manner is invited to apply for membership.

President's Message

It's always hard to realize when another year is winding down, and Christmas is almost here! I hope everyone has had a great Thanksgiving holiday! I'm happy to report that Jeff Snyder is on the mend from the heart attack he suffered in transit from CONSTRUCT 2011, and was at our November Board and dinner meeting. That's something we are all thankful for! The November meeting featured CSI's own Joy Davis, who presented a demonstration of social media in action from Albuquerque, NM. It seemed as though half the people in the room were participating and half were just observing what was happening. Some others participated remotely. Social media technology has great potential to revolutionize our business, and Institute has tried a Social Media Campaign experiment using Twitter that netted (no pun intended) 50 new members. As Joy

pointed out, we as an organization have the knowledge and expertise that others lack but need! We just have to find a way of communicating that fact to the new generation that craves to find answers, and convey to them that we are here to help! A young guest on our tour of the new Millersville University Student Memorial Center liked the experience so much she wanted to "friend" us, but unfortunately we don't have the capability to oblige her yet. However, several members of our Chapter are exploring how we can incorporate social media into our Chapter's routine operations so we can attract that growing segment of our industry that has adopted social media as their preferred choice for networking.

Institute has introduced a new initiative for growing our membership called Buy One – Get One, or

Jeff Turicik
Editor

From the Editor's Desk

Jeff Snyder, Awards Committee Chairman, has informed me that the Central Pennsylvania Chapter of CSI has received a 2011 Outstanding Chapter Commendation from Kelly Porter, CSI Board Member and Executive Operations Coordinator. The Central Pa Chapter has received this award at the Silver Level, which indicates that our chapter has received this award for 10 consecutive years. I believe that this is a true honor for our chapter and its outstanding leaders, membership and activities.

Jeff Turicik CSI
Editor

The Central PA Chapter dues include all meals for the chapter program dinner meetings for the year.

Come out to our meeting to network, socialize, and learn about timely subjects in the Construction Field.

BIM – The Next Step

- How to embed Spec's with-in Autodesk Revit/ Inventor 3D Model Based Workflow
 - Attaching/Associating Documentation with-in the Model Space
 - Hyper-linking/Path Generation of OEM Manuals, Maintenance Schedules
- Utilization of Revit Model to Produce Construction Documentation
 - Export of 2D Drawings
 - Export/Attach 2D Details in Plan Set
 - Export DWG, Smart DWX etc. file formats

Presentation and discussion will be led by representatives of Print-O-Stat, an AutoDesk Revit dealer and trainer, including Steve Hanus, Bashar Albadri and Ron Sieple. Print-O-Stat, Inc., a document management solutions organization, provides technical products, services, and solutions to a wide variety of business-to-business clients. Their serviceable market includes architects, engineers, and contractors, along with manufacturers and other public and private industries. The company has more than 130 full time employees in 11 locations throughout Pennsylvania, Maryland, and Virginia. See www.printostat.com for more information on Print-O-Stat's resources and services.

This program will be registered for continuing education credit for AIA members.

Information on Program Presenters:

Steven B. Hanus, Print-O-Stat Division Manager for Software Solutions and Geospatial Solutions, has been employed with Print-O-Stat, Inc. for over 22 years, holding various technical, operational and management positions. He was named Senior Vice President in 2008.

Steve is a veteran of the U.S. Army where he successfully achieved his technical military training. His professional expertise has helped him bring new and innovative products and services from conception to the industry. His keen aptitude for technological systems positioned him early on in his career as a driving force within his company's leadership team. His resume includes successful sales development, along with the launch of new business opportunities, programs, and divisions. Steve is currently responsible for the overall direction of Print-O-Stat's new software and newly restructured survey divisions.

In addition to serving on the Print-O-Stat Board, Steve is actively involved in industry-related organizations as well as local community programs. He is a member of the Mid Atlantic Builders Exchange; Maryland Building Congress &

Exchange; Eastern Region Reprographics Association; International Reprographics Association; Home Builders Association of Maryland; Revit Users Group of Central Pennsylvania; Committee Member of the Rocky Mountain Elk Foundation (Maryland Chapter); Jarrettsville Recreation Council Board of Directors; and Spirit Cheerleading Program Director.

Bashar Albadri, Print-O-Stat AEC Solutions Engineer, has over 7 years experience in Architectural design and visualization. Bashar received his Bachelor of Science in Computer Science and Software Engineering from the University of Technology in Baghdad-IRAQ, as well as, an Associate's degree in Architectural Design & Design Visualization from the University of Baghdad. He spent 3 years as a certified instructor at KIC International College in Dubai before moving to the United States in June of 2008. Among his many accomplishments, in 2009 he became a Certified Professional in Autodesk Revit Architecture. Bashar has a strong commitment to provide his students with the tools and knowledge necessary to accomplish their design needs. Through his experience as a consultant, he brings real world applications into the classroom. AutoCAD, 3ds Max Design, Revit Architecture, Revit Structure, Revit MEP, Navisworks and Quantity Take Off are among the many Autodesk courses instructed by Bashar.

Ron Sieple, Print-O-Stat Manufacturing Application Engineer, has over 35 years' experience in the manufacturing industry. He began working in the industry as a laborer in the maintenance trades while attending College classes at both York College and Harrisburg Area Community College in the evenings to acquire his Engineering Degree. During his time spent in various maintenance positions, he gained experience in automated production equipment. He was also introduced to Computer Numerically Controlled (CNC) equipment, both the operation and troubleshooting of said machines. This experience would later help him better understand the procedures and practical designs required in today's manufacturing processes.

After acquiring all his engineering courses, Ron was able to move into an Engineering Design and CAD Administration position, in which he was responsible for creating initial designs and supervising a number CAD drafters and designers. His responsibilities also required interaction with other members of the engineering staff spanning the entire design to manufacture process. For a time, he was also in charge of deliverables from the computer files as electronic transfers and paper output through the print and documentation facilities.

Migrating from drawing board to main frame computers to personal computers, Ron has had the opportunity to not only utilize but also deploy various software such as

Certification
Chairman*

Chapter Certification Study Course

January begins the Chapter Certification Study Course at the Midtown HACC Campus. If you are interested in the program, follow the instructions below to get enrolled. It is highly recommended for anyone taking the CDT exam. February 2nd is the early deadline to register for the CDT, CCS, CCPR, and CCCA exams, so don't delay. March 2nd is the final deadline.

What is CDT? It stands for Construction Documents Technology. Some of the benefits to getting your CDT means:

- Adding "CDT" after your name, to your business card and to your resume
- Understanding how a project unfolds from conception to delivery
- Understanding the documentation involved
- Getting listed in the [Certificant's Directory](#)

The certification exams are scheduled for April 2 - 28, 2012, and are available at Prometric Testing locations throughout central Pennsylvania. Go to www.csinet.org and click on "Certification" in the upper right-hand corner.

Study Course:

Dates: January 23 thru April 2, 2011
(Monday evenings for 10 weeks)

Time: 5:30 to 8:30 PM

Location: HACC Midtown Campus
4th and Reily Streets, Harrisburg, PA

Cost: \$140 (subject to change - check HACC website)

Registration: Refer to www.hacc.edu for registration requirements.

Textbook: CSI's Project Delivery Practice Guide

The study course is designed to assist candidates preparing for the examination by offering a complete overview of CSI's Project Delivery Practice Guide and the AIA General Conditions publications. The course will be offered as both a 1-credit course in HACC's Building Construction Technology curriculum and a non-credit course in HACC's continuing education program. Registration is available now.

To register: Go to www.HACC.edu and click Admissions.

Non-credit course enrollment: Call HACC for CRN No.

Credit course enrollment: Course No. CRN 34500

It's also a great way to brush up on your skills regarding contract document relationships, change orders procedures and formats, or the elusive contents of the AIA A201.

If you have any questions about the class or the certification program feel free to contact me at 717-263-8464 or pbrunski@noelkerhull.com.

Invest in yourself!
Get certified!

*Paul Brunski CCS, CSI
Chapter Certification Chairman*

(Continued from page 3)

BIM – The Next Step

Gerber Systems Technologies, IBM Mainframe CADAM, Micro CADAM for PCs, PADS (PCB software), OrCAD, AutoCAD, AutoCAD Mechanical, Mechanical Desktop, and Inventor, just to name a few. His experience as CAD Manager for 20 plus years coupled with his position as System Administrator for over 17 years enables him to relate to real world scenarios and issues. This has enlightened him to the importance of file and document management. Ron's experience with various document management software, including Autodesk's numerous

versions of Vault and Microsoft's file management has prepared him for the different levels necessary to control documents and planning workflows for numerous companies. For the past 5 years, Ron has been part of Autodesk Reseller Channel providing services for implementing, and training of Autodesk's suite of Manufacturing products. He holds many certifications including Manufacturing Implementation Certified Expert, and Inventor Professional Certification (2009-2010). Ron truly invests his time and efforts for the success of his clients. For this reason, he has been greatly successful in the implementation of technology within many organizations.

OCCUPATION CSI

Bryan J. Varner, CSI, CCCA, LEED AP

Everyone but CSI's newest members recalls the robust debate members had over the last two years about the bylaws amendment to reduce the membership classifications from three to one. Many believed that everyone should be recognized as a "professional member" while others believed that it is important to maintain the differentiation in member classifications. CSI members engaged in this spirited dialogue because of the organization's uniquely diverse composition of technical expertise that naturally spawns equally divergent perspective and viewpoints. CSI's broad base of membership creates and drives all of its brilliance and attractiveness.

After the bylaws amendment passed, the Membership Classification Update Task Team (MCUTT) was formed to draft revisions to the various CSI policies and model chapter and region bylaws. This work was completed by the end of FY2011.

Then something very astonishing happened. Do you know that the long time listing of 58 occupations that CSI members and prospects choose from has been shredded down to 14? Do you know that structural, mechanical, and electrical engineer, as well as project manager, construction manager, landscape architect, and interior designer, among many other occupations are no longer recognized? Landscape architects are now lumped in with architects. All of the former eight categories of engineers have been reduced to one. Project managers and construction managers may now choose the entry level occupation of contract administrator. Students and consultants are now recognized as occupations. Surveyors and inspectors are now combined in one category. The "other" category is bloated with a catch-all of misfits. To me, from a membership standpoint, the change makes no sense at all. Member homogenization does not improve CSI.

Look at your chapter roster and see who has been reclassified. Check your own profile (csinet.org, My CSI). I have noticed some bizarre reclassifications. Just a few days ago a CSI colleague informed me that she is now listed as a facility manager however she is a project manager for a high-end custom home builder. None of the 14 choices match what she does.

This change was implemented without any member approval. That's right. Neither the Institute Board of Directors nor the MCUTT and Membership Committee had any say so in the change. Even more perplexing is why this change has not been announced and explained to members. It's time members learn what happened.

It turns out that the agency that sells ads for the *Specifier* magazine, Kenilworth Media, Inc., made the recommendation to revamp the occupation listings and Institute staff agreed to it. The changes are apparently good for how information about membership is compiled and used to solicit and sell ads. At its September meeting, the Board assigned the evaluation of the new listing to the Membership Committee however action was regrettably suspended due to more pressing priorities. Next year's Board might decide whether to make the evaluation and revision of the occupation listing an action item. Does FY2014, or July 2013, sound soon

enough?

The offer to join CSI should embrace and reflect the organization's broad diversity of membership by presenting a wide variety of occupation choices. It's wrong that CSI no longer recognizes landscape architects, construction managers, project managers, interior designers, and a bunch of engineers and that they now have to select an "occupation" they do not work in? Do you think that CSI would attract and retain more members if it offered more than 14 occupation choices? If you do not work in one of the amputated occupations, ask some members whose occupations have been eliminated what they think about it. Some people will pass on joining CSI or renewing their membership because their occupation is not listed among the lean 14 choices? (Well, it's actually 15 if we count surveyors and inspectors which share one occupation listing.) Why have so many entry doors to CSI been removed and walled over?

If you think this change is bad, tell your region Institute Director. Better yet, tell every Institute board member why this change will hinder recruitment and retention and the maintenance of member diversity. Tell our top brass if you think the change should be scrapped immediately, and that the old system be reinstated or a new one implemented. Tell them if you want it changed now and not down the road maybe, someday. Tell them that CSI should define its membership, and not an ad agency.

Here are the decision makers' email addresses. We need ten votes:

President Paul Bertram – pbertram@kingspanpanels.com
 President-Elect Gregory Markling – gmarkling@moaarch.com
 Vice President Mitch Miller – mmiller@usaarchitects.com

See the new 14 occupation listings on the back page of the membership application at <http://www.csinet.org/Main-Menu-Category/Membership/QT/Enrollment-Form-PDF.aspx>
 See the previous 58 occupation listings on the back page of last year's application at <http://www.box.com/s/0fxpyih6ify3tb6q113v>.

Minutes of Board of Directors Meeting

Jeff Turicik
Editor

Date: November 8, 2011

Time: 5:00 pm - President John Groff enters the room with a movie screen in hand.

President Groff jumps into action and calls the meeting to order with new business at the top of the agenda.

Recording Secretary is the first topic- Jennifer Ponce De Leon is appointed Recording secretary after

torrid discussion by the Board.

Discussion on why becomes a member by Eric Lussier - Relates to our evening program

End New Business

Location: Radisson Hotel, Camp Hill, PA

Chapter Reports:

President Groff comments – he refers to quorum, and lack thereof.

Treasurer Report: (A) - web copies sent, no paper copies, but ... President Groff makes copies of report by miraculous computer manipulation (B) - Treasurer Brightbill – reports good balances - Audit Completed- It was a clean audit. The Audit is available for anyone's review, and open for view.

President Elect: Jan Myers- no report

Vice President: David Shaw – no report

Past President: No report

Editor: Jeff Turicik – no report

Academic Affairs: John Cannon – no report

Advertising: Bill Deck – Table top for tonight moved to January – equipment malfunction by presenter.

Archives: John Morgan - no report

Awards: Jeff Snyder - Glad to be back! Region Awards discussed. Our man, Larry Saylor considered for 2 awards. Go Larry.

Budget/Finance: Taxes complete, and sent in today 11/8/11

Certification: Chair Paul Brunski wants to buy books for Instructors for CDT Class at HACC... Update coming from Mt Brunski. Voted and passed – PB can buy books.

Education: Millersville Tour reported to AIA. Certificates available from Mr. R. Lofton.

Electronics/Communications: Working w/ Jan - Questions - Post Cards vs. E-mail. E-mails sent only when the post card is late. Tanya Ritter is looking for better ways to get the word out.

Exhibit Show: S Cluck to send out Pre-registration for exhibitors. J Turicik to get more addresses.

Membership: Jan Myers - 2 New Members! One coming tonight.

Old Business:

6-1 Guideline & Policies for speakers and program presenters - Discussion and NOVA chapter guidelines passed out to the board. They make sense.

6-5 Mentoring and Buy One Get One Membership Program - BOGO Program - Discussion

6-6 Corporate Discounts - Discussion

7-4 Region Conference – Meeting Coming up – John Morgan - Discussion

10-1 Organization Chart – Copies passed out by President Groff. They are Nice! It makes you feel important.

Remainder of Old Business taken care of during committee reports.

Directors: No reports

The next board meeting is scheduled for 5:00 PM on December 13th at the Radisson Hotel and Convention Center. The next chapter dinner meeting is scheduled to begin at 6:00 PM on December 13th.

Respectfully Submitted,
Jeff Turicik
Choice Editor

(Continued from page 2)

President's Message

BOGO. As of the end of October, Institute membership stood at 11,900, which is a slight increase. The BOGO program allows one new member to join (sorry, no renewals qualify) and get a certificate to give a free membership to someone else. The idea is that if someone wants to join and has a friend at work or business acquaintance that could benefit from membership, the new paying member can give them a free membership to "try us out" so to speak. It's a way to bring a friend to CSI functions without having to pay their way, or to just to have a side-kick that the one knows and likes. We all know how much CSI can benefit our careers and friendships, so giving this gift to someone else is "priceless"! This provides a great way to start a conversation about CSI. Go spread the good news about CSI throughout your company!

Institute is a-buzz with other initiatives too. A contract for a Branding Initiative entitled "Revitalizing CSI: A Branding and Communication Strategy" has been signed with Potomac Communications Group, Inc. The word is that the initiative will contact Chapters for insights and other information or action, so be forewarned. Institute is also sponsoring a Master Specifiers Retreat to identify the top 40 specifiers and an Owners Task Team, and has signed a Memorandum of Understanding (MOU) with the International Code Council (ICC) regarding CSI GreenFormat.

I hope to see you at December's dinner meeting back at the Radisson when we will have a program entitled "Implementing BIM in Central PA," a presentation and discussion led by Print-O-Stat.

John Groff, PE, CSI, CCS

Calling All Reps!

Would you like to highlight your company or a special product? Do we have a deal for you. For a mere \$125-\$150 you can display your wares during the social time and have 10 minutes of everyone's attention during dessert at one of our CPC/CSI dinner meetings. What an awesome opportunity to hit several specifiers at once. If you are a member of this chapter, it will cost \$125. If you are not, it will cost \$150. For more details, see the CPC-CSI.org website. To schedule a table top, contact Bill Deck at wdeck@rlps.com. Thanks!
